

Janos Dominik Hasko

Academy Student - Computer Science

Personal Information

Student at Zealand Academy
Born in HU-Kiskunhalas, 09 Nov. 2000
4000 Roskilde
dominikjanoshasko@gmail.com
www.jdhasko.github.io

Personal Skills

Programming languages
- C#
- XAML
- HTML & CSS & Javascript & Typescript
- SQL

Languages

- Hungarian : Native
- English : Proficient
- Danish : Beginner

Driving skill

Driving License (B)

Experiences:

- SCRUM & XP & Agile
- UX Design/Prototyping
- Computer networks
- APIs
- Client-Server architecture

Kind regards,

János Dominik Haskó

About Myself

I am a 20 years old student at Zealand Academy in Computer Science with a great desire for programming. I am a talkative, creative and open-minded person. I was born and raised in Hungary when I turned 18, I moved to Denmark to start my education here. Besides my studies I also learn Danish, as I find it interesting just like the danish culture. In my free time I love cooking, playing the piano and I am always open for a coffee and a great conversation.

Education

- 2019- Zealand Academy - Computer Science
2015-2019 II.Rákóczi Ferenc Catholic Secondary school
IT department. (Matura exam in IT)

Trainings

- 2018 Cisco Networking Academy CCNA Routing and Switching:
Introduction to Networks training with successful exam
2018 ECDL STANDARD - European Computer Driving Licence
2017 Cisco Networking Academy IT Essentials training with
successful exam

Work Experience

- 2020 July - present First Assistant - Netto, Salling group
2020 March - 2020 Jun Shop Assistant - Netto, Salling group
2017-2018 summer IT Internship at WEBHOUSE Kft. (Kiskőrös-Hungary)
2016-2017 Community service

At Zealand Academy, we gain hands-on experience and up-to-date knowledge in IT and programming. During my studies, I've been working on multiple projects where I had to take responsibility from the design to implementation.

I understand how the backend and the frontend work together, and we often had exercises where we had to work as full-stack developers.

I learned how to work in a group and how to manage a team. I got experience in C#, XAML, HTML, CSS, SQL, Javascript, Typescript and I got an overall understanding on the Agile software development process. I also learned how to configure APIs. In my free time, I love designing UI-s, prototypes in Adobe XD and creating logos and I also spend a lot of time on watching courses on LinkedIn-Learning.

I feel passionate about IT, and I would love to get more experience in the field. I'm looking for a suitable developer position with an exciting and innovative company that offers some challenges for me to improve.
