Kind regards,

János Dominik Haskó

About Myself

I am a student at Zealand Academy who is looking for a student job to gain some more experience in practice. I am a smiling and open-minded person. I am Hungarian but I moved to Denmark to take my education here. Besides my studies learn Danish too, as I find it interesting just like the Danish way of life.

In my free time I enjoy playing piano, cooking or reading and I am always open for a great conversation.

Education

2019- Zealand Academy - Computer Science

2015-2019 Secondary school: II.Rákóczi Ferenc Catholic Secondary school IT department. (Matura exam in IT)

Trainings

2018 Cisco Networking Academy CCNA Routing and Switching: Introduction to Networks training with successful exam

2018 ECDL STANDARD - European Computer Driving Licence

2017 Cisco Networking Academy IT Essentials training with successful exam

Work Experience

2020 July - First Assistant - Netto, Salling group

2020 March - 2020 Jun Shop Assistant - Netto, Salling group

2017-2018 summer IT Internship at WEBHOUSE Kft. (Kiskőrös-Hungary)

2016-2017 Community service

At Zealand Academy we gain hands-on experience and up-to-date knowledge in IT and in programming. During the past one and a half years I've been working on multiple projects where I had to take the responsibility from the design to implementation. I got experience in C#, XAML, HTML, CSS, SQL, Javascript and an overall understanding on the Agile software development process. During our projects we've been using XP and SCRUM. I also got some experience with Microsoft Azure and other Microsoft products like Microsoft Office programs.

In Hungary I took my vocational education in IT as well and gained experience in networking, databases and programming. I've been configuring CISCO devices during my studies and my internship.

I feel passionate about IT, and I would love to get more experience in the field. I'm looking for a suitable developer position with an exciting and innovative company that offers room for extending my knowledge in IT.
